Education

National University of Singapore (NUS)
Incoming Year 3 Student for AY2026-2027

Expected Graduation June 2028

Bachelor of Mechanical Engineering (Honours) GPA: 4.83/5.00
Bachelor of Economics (Honours) GPA: 4.65/5.00

- 1 of the 200 NUS Merit Scholars, a scholarship programme offered by NUS

Anglo Chinese School (Independent)

Jan 2016 – Nov 2021

International Baccalaureate Program

Grade: 45/45

Higher Level: Physics, Math, Chemistry | **Standard Subjects:** Economics, Lang & Lit, Chinese

Projects

Robomaster Infantry Robot

Aug 2024 – Cont.

Mechanical Lead and Project Manager for Infantry Robot

- Placed 2nd out of 26 teams (1v1 Competition) and 5th out of 20 teams (3v3 Competition) at Robomaster North America 2025
- Designed Gimbal to Chassis mount to withstand loads of up to 60N force, to be able to withstand jumping off 0.500m ramp at 2m/s.
- FEA Analysis on chassis bumpers to withstand collisions of up to 200N force and chassis strength to withstand fall from height of up to 1 meter without plastic deformation.
- Optimization and testing of flywheel projectile launcher to 95% accuracy within a 12cm-by-12cm square at 5 meters.
- Designed Carbon fibre, Aluminium plates, and CNC parts for manufacturing in SolidWorks
- Designed for Manufacturing and Design for Assembly to reduce cost and decrease assembly time and complexity in second iteration.
- Deployed, maintained and repaired both robots for a 3-day competition across 18 matches.

Vex Robotics Competition

Jan 2016 – Nov 2021

Mechanical Design and Construction

- Division Champion out of 100 teams in 2018 VEX Robotics World Championship, and 3rd overall. Won nationals, Semifinals in 2019, out of 100 teams in the division.
- Designed different subsystems over years of competition, ranging from but not limited to:
 - Ball feed path with colour sensor to sort Blue from Red balls
 - Designing and implementing tracking wheels for odometry
 - 3:5 drivetrain to provide 333RPM to the wheels
 - Flywheel and catapult systems to launch balls
- Was a senior in the team from 2020 to 2021 and provided mentorship to juniors.

Previous Employment

St Engineering, AirX

Jan 2024 – April 2024

Quality Assistant, Worked on Wing in Ground Craft and Learnt CAD Skills and Design

- Dealt with ISO 9001:2015 related Documents
- Walked the ground and inspected workshop, workspaces and ensured that they complied to relevant standards
- Drafting and Documenting Processes to ensure that it is in line with ISO Standards.

National Service, SAF Army Technician

May 2022 – Oct 2023

Maintenance Technician

- Worked on maintenance of tanks of all variants.
- Underwent Workshop and technician training.

Relevant Skills

Computer Aided Design:

SolidWorks (CSWP), Fusion360, Catia, Ansys (Student)

Programming Languages:

Python, MATLAB (NUS), C++, C (Self-taught)

Other:

3D Printing, Soldering, Milling, Turning, PC Building, Electric Circuits
